The Federal Safe Drinking Water Act mandates the addition of chlorine to our water supply. This chlorine will oxidize the iron which occurs naturally in our water, causing intermittent water discoloration which can discolor clothing.

The water and sanitation district maintains office hours from 7:30 AM to 4:30 PM Monday through Friday. The office is closed on holidays. **When service is required after hours call 303-841-4627.**

We encourage your participation in our conservation program by reporting line leaks up stream of your meter promptly, by repairing your own leaks promptly, by not over-watering your yard, and setting automatic sprinklers for off-peak watering.

The District Board of Directors meets at its office the second and fourth Thursday of each month at 7:00 PM. The Directors are all residents of the district. Should you desire to appear or contact a Director, please do so through the District Manager. All residents are encouraged to attend the board meetings.

The District is empowered to act under Colorado statutes. All rates and regulations are available from the office. The District's yearly budget is reviewed and adopted at a regular meeting.
